

Lydden Village Hall

Lydden village hall is situated behind the Lydden Bell pub on Canterbury Road, access through the pub car park.

The hall has recently been refurbished inside and out with volunteer help and a major grant from the Lottery Fund for the outside cladding and doors. There is a small kitchen area at the rear of the main hall, a small stage, a lobby and male, female and disabled toilets. There is parking outside, a grassed area and access to the playing field.

Village Hall Committee

There are usually four meetings a year which are concerned with management of the hall in line with the status of being a registered charity, but also with planning refurbishments, monitoring bookings and the budget and looking for ways of increasing activities.

There are some small maintenance and cleaning jobs that are done by the members who are willing but no major DIY skills are needed.

We would particularly like to see new members from groups or organisations within the village who might want to use the hall or playing field.

If you think you might be interested in joining and would like to find out more then contact the committee using the details above.
